

## **Steps to remove a SIM Card from a i7910**

1. Remove the battery from the terminal
2. Locate the white rectangular piece that is attached to the circuit board (this is the SIM card holder).
  - a. Slide the metal piece up. This will unlock the SIM card holder. Lift up the SIM card holder, and slide the SIM card out of it.

## **Steps to insert a SIM card into an i17910**

1. Remove the battery from the terminal
2. Locate the white rectangular piece that is attached to the circuit board (this is the SIM card holder).
  - a. Slide the metal piece up and lift the SIM card holder.
3. Slide the SIM card into the SIM card holder so that the gold area on the SIM card is facing the bottom of the terminal and the notched corner is in the top right.
  - a. Ensure that the SIM is inserted firmly into the SIM card holder, and lower the SIM card holder back down.
  - b. Hold the SIM card holder firmly against the circuit board and slide the metal piece towards the bottom of the terminal to lock the SIM card holder back into place.
4. Replace the battery and power up the terminal.
